

# System Requirements Deep Learning Lab @ home

- CUDA-compatible GPU Compute Capability  $\geq 3.0$
- Linux
- CUDA drivers 8.0 or 9.0
- Python  $\geq 3.5$ , preferably Anaconda
- Python modules pytorch and torchvision, e.g.  

```
conda install pytorch torchvision cuda90 -c pytorch
```
- Test installation in Python  

```
import torch  
torch.cuda.is_available()
```
- Internet connection, electricity, and *patience*
